GRANDE
TRAIN HELD UPFive Masked Men Loot
Number Five.Express Car Blown
Open by Dynamite, Small
Sum Secured.Robbers Near Parachute, Colo.,
the Joint Track Between Grand
Junction and Glenwood.

At 11:30 p. m. June 8—Denver & Rio Grande passenger train No. 5, bound from Denver, was held up last night by five masked men three miles west of Parachute, a fruit station midway between Grand Junction and Glenwood Springs. One sealed bag containing a small sum of money was taken from the express car, which was dynamited. The express car was badly wrecked by dynamite, but the robbers were forced to flee to the mountains before they could reach the valuables in the car.

Trailing Bandits.
Sheriff W. G. Struthers and Deputy Sheriff D. M. Hardy of Grand Junction now upon the trail of the robbers, who are supposed to be farmers and ranchers, were quickly summoned from the vicinity of Grand Junction.

When the train reached a point three miles west of Parachute last night two masked men crawled over the tender and engine. They placed six-shotters in the hands of Engineer Allison and his man and demanded that the train stop. Three men were waiting for the train and the train stopped. The robbers quickly ran back and uncoupled the express and baggage cars. These cars, with the engine, were run two miles further west.

Helpless Train Crew.
The members of the train crew were ordered to remain with the passenger car on pain of being shot. When point selected for the dynamiting

at Brakeman.

When belated No. 5 of the Rio Grande, the train that was held up, pulled into the local station at 2:40 p. m. yesterday, it was awaited by a large and interesting crowd. Newspaper men and officials, society leaders going away or seeing others off or waiting for some relative to arrive, soldiers in khaki, people of many nationalities eagerly looking for a large party of emigrants coming in from Sweden, Denmark or Great Britain. And when the train pulled in there was a great rush, each person having a different interest in the swiftly moving train. The baggage car exploded by the bandits had, of course, been left by the roadside in Colorado as it had been blown to pieces. Much of the baggage had also been damaged, but it had been transferred to other cars. One car, however, bore the marks of the deadly bullet of the assassin, and everybody knew the center of interest. The crew was pilled with questions, but as the men in the hold-up had only run to Grand Junction, the trainmen had nothing but hearsay reports to make. The brakeman porters had been on the train, however, and had plenty to tell of the scramble among the passengers when the trouble first broke out.

Held Up Wrong Train.
The hold-up took place about three miles west of Parachute, Colo. Parachute is on the Rio Grande Junction railway between Newcastle and Grand Junction, and is a joint road, used by both the Colorado Midland and the Denver & Rio Grande systems. As each road makes connection with Rio Grande Western trains at Grand Junction a double service for all trains from No. 1 to No. 6, inclusive, is operated daily. The time of the Midland train west-bound was ten minutes ahead of the Rio Grande 5. The Midland carries Wells-Fargo Express, while the Rio Grande in the State of Colorado has the Globe express, the Gould west express corporation and a local express com-pany, therefore, the strong box was practically empty, while in the Wells-Fargo strong box on the Midland train was said to be more than \$50,000 in cash for San Francisco. Some say it was much more than this, but as every one is reticent the exact amount in the car will not be known.

Be that as it may, the robbers missed it and held up the Rio Grande train thinking it was the Midland. They were further thrown off by the fact that the Midland train was late and the Rio Grande train was running on the Midland's time. This is borne out by the fact that the robbers de-camped without molesting the crowd of well-to-do passengers on the heavily loaded train. They merely held up the train and were eager to make good their escape while there was plenty of time and the excitement pre-vailed.

Will Hunt Down Robbers.
It makes no difference to the railroad management that the loss to the com-pany was so slight, the damage to the car and the small amount of booty, but steps have already been taken by the management and the proper officials in Denver have been advised to offer the usual reward and to adopt every effort to run down the robbers. This work is being done jointly by the Globe Express company and the Denver & Rio Grande Railroad company under the direction of the operating department. The agents all along the line in Utah and Colorado have been notified and de-scriptions, as far as they could be ob-tained, have been wired. Sheriffs and others in western Colorado, as well as other officers, are at work in the case, and there is some hope that the men may be caught.

Vice-President Schlacks, Manager Edison of the Rio Grande and others came in yesterday on No. 1, but when asked about this matter, they said they were not on the train, and although they were constantly in touch with the officials in Colorado and everything pos-sible was being done to apprehend the men, there was nothing to make public. The loss was very small, they said, but the attempt was just as much of a crime as if the men had secured thou-sands.

Funston in Hold-Up.
No less a personage than Brig.-Gen. Frederick Funston, U. S. A., was one of the passengers on the train, calmly sleeping in the Pullman, when the racket broke out. He was awakened by Second Lieut. Charles H. Fulton of the Philippine scouts, U. S. A. The two officers had retired to their berths when the fusillade commenced outside the car and was followed by the ter-rific explosions. It is probable that the officers were awakened with an idea that they were back in the islands, but as all the passengers were told to "shut up" by a police man outside the car, and a brakeman who peeped out of car No. 216 was nearly killed by a shot,

No Competition.
The uniform success of Chamber-lain's Colic, Cholera and Diarrhoea Remedy in the relief and cure of bowel complaints, both in children and adults, has brought it into almost universal use, so that it is practically without a rival, and as everyone who has used it knows, is without an equal. For sale by all druggists.

NEWS NOTES BY WIRE.
SAN FRANCISCO, June 8.—Four delegates to the national conventions from the Phil-ippines arrived today on the steamer Cop-land. Two of the delegates are judges of the Court of First Instance, one of them is a merchant and the other is deputy col-lector of customs at Manila.

MITCHELL, S. D., June 6.—The Prohibition State convention nominated a State ticket headed by W. J. Edgar of Brook-ings for Governor, Rev. A. Jamieson of Union and C. H. Thompson of Spink were nominated for Congress.

WASHINGTON, June 8.—Capt. J. P. Merrill has been detached from duty in connection with the general board and assigned to the command of the battleship Oregon on the Asiatic station.

POUGHKEEPSIE, N. Y., June 8.—At the Yassie college commencement exer-cises today, President Taylor announced that the total subscriptions to the en-dowment amount to \$12,341. John D. Rockefeller will give an equal sum.

HAVANA, June 8.—The Senate disposed of several matters today in which the concurrence of the House is not neces-sary. The late of Pinney with the United States was ratified without debate and also the postal treaty with Mexico.

POUGHKEEPSIE, N. Y., June 8.—At the Yassie college commencement exer-cises today, President Taylor announced that the total subscriptions to the en-dowment amount to \$12,341. John D. Rockefeller will give an equal sum.

the soldiers were not among those who went out to reconnoitre.

Naturally the officers were the center of attraction for the other passengers in the Pullman, and when their identity was disclosed, they were pilled with questions and made it highly interest-ing for the party during the remainder of the journey to Salt Lake. Arriving here, however, Funston and Fulton did not leave their car and it was im-possible to secure an interview with the well-known officer, who was going right through to San Francisco. They caught the California limited at Ogden.

Gives Graphic Account.
"Do you see that shattered window frame?" said H. H. Jones, a Grand Rapids traveling man, who had alighted from one of the sleepers. He was pointing to the central window on D. & R. G. coach No. 216, which was torn all to pieces.

"That," he continued, "was where one of the robbers shot when a brakeman threw up the win-dow and wanted to know what the trouble was. The robber, with an aim, deliberately fired at the man's head, and that is the result. It is a wonder the brakeman was not killed instantly."

Continuing, Mr. Jones went on to say that the robbers had one of their num-bers at Parachute and the evidently mistook the Rio Grande train for the Midland express. Anyhow, the fellow boarded the car at Parachute and with a gun threatened the engine crew, made them pull on for about three miles, where the others were in hid-ing, ready to start upon the express car when the engineer had stopped the train by direction of the robber in the cab.

Mr. Jones gives much the same ac-count of the general details of the shooting and blowing open of the car as that given by the passengers, but added that, although it was given out that the robbers did not secure any booty, they did get a package of Jew-elry valued at about \$5000 and shipped by Marshall Field & Co. of Chicago. He is of the opinion that the robbers were in some way scared off or that they at last realized that they had missed Wells-Fargo & Co.'s strong box. Mr. Jones will be here for several days.

Just Too Exciting.
"It was just too exciting!" said a stylish young girl, who was traveling with quite a party of other girls and young men, with several chaperones, all bear-ing the unmistakable stamp of a Fifth Avenue modiste. Her reply was to one put by The Tribune when asking for her experience in the hold-up. "We were still up," she continued—"but you are not going to use my name, are you?"

"Oh! It doesn't matter in the least," she laughingly replied. "But really it was awfully exciting. One could hear the shooting for ever so long and men talking and everybody excited. No, no one was hurt, except the poor brake-man, and he was not so badly hurt they said. No; they didn't bother any of the passengers, but we were all very busy engaged looking at our jewelry. Where did I hide mine? Such a good place, under the carpet and under the cuspidor. They all laughed at me. Was I frightened? Well, I should say so. What are all these dressed people doing around the depot? Who are the for- eigners who came in on the train? Oh! Mormons, yes, I see. All right, mother, I'm coming. Good bye! No, it doesn't matter about my name."

Dr. Ramsey's Account.
An interesting arrival on the ill-fated train was Dr. E. A. Ramsey of Salt Lake, one of the United States in-spectors in the Bureau of Animal Industry, of which Dr. Hickox of this city is chief inspector. Dr. Ramsey is over here on business and will remain some time.

According to his remembrance of the trouble he was awakened shortly after 11 o'clock by the first shot, quickly fol-lowed by a loud explosion. He looked out of the window and heard someone say, "What's the matter?" and the gruff answer, "Shut up." Then came the second explosion and more shots, and at last the third explosion, which shattered the window and soon after that he heard that the men had escaped. Then all the passengers began to investigate and the details of the crime were secured. According to the official report, the only person hurt was the brakeman, and he was said to be not fatally injured.

Mr. Ramsey heard at the time that with the exception of a small package the men were entirely unsuccessful in securing booty and it is considered quite remarkable by him, as well as by other passengers, that the thugs did not go through the cars, as they were armed and the cars were filled.

Mormons Converts on Train.
Arriving on Rio Grande train No. 1 yesterday afternoon was a party of fifty-four Mormon converts from many different countries of Europe.

Many Salt Lake relatives awaited the travelers and shortly after the train stopped the station platform was one of the most exciting and interesting places imaginable. Sisters and brothers and cousins hugged and kissed and went. The united voices of many tongues filled the air and it was a very happy picture the onlookers viewed.

Some of the passengers were from Scandinavia and it was quite pathetic to watch them as they descended and entered in the arms of those who had been in favored Utah for several years.

The party was under the charge of Elder John J. Ladle of Men, Cache county. There were thirty-four for this city, eighteen for Ogden, seven scattering in the State, and three got off at Castle Gate.

UNION MINERS' ORGAN
WANTS STRIKE CALLED OFF

VICTOR, June 8.—The Record, owned and edited by George E. Kiner and re-cognized as the official organ of the Western Federation of Miners in the Cripple Creek district, published an editorial today urging the miners to call off the strike, which was inaugurated ten months ago. The article says:

"The sentiment is growing against the Western Federation of Miners on account of its continuing the strike. There are few people who believe that this is a just strike. The miners are responsible for the crimes that have been committed here, except that if the strike had not been called and continued so long the dynamiting would not have occurred, and in that respect the strike is respon-sible for this outrage, whether there was justice in the claim of it or not. In the interest of the men and women who have made the Cripple Creek dis-trict the Record asks the Western Fed-eration of Miners to call off the strike."

Men Lose Their Homes.
"Miners living in this district are los-ing their homes or being obliged to go away and leave them. None of them, when they express their convictions, as many of them have to the writer, be-lieve there is a chance of winning the strike, but the longer it is kept going

DEPORTED MINERS
LANDED IN DENVER

DENVER, June 8.—The twenty-four deported union miners from the Cripple Creek district, exiled since the serious riots in that section, rode into Denver about midnight on a special train over the Denver & Rio Grande. In the rear of the car stood nine guards armed with shotguns and army rifles, who had been deputized to accompany them to Den-ver from the gold camp. The miners

were unarmed. Nearly all were pen-niless. The men were met by about forty of the delegates to the convention of the Western Federation of Miners and were taken to a restaurant.

The miners declare that the Cripple Creek district is no longer safe for union men. "Any one who has an en-emy," said one, "had better get out, be-cause it is impossible for him to be pro- tected there now."

What the Men Say.
The miners assert that when arrested they were searched by guards of Gravel-mitla and Citizens' Alliance and their money and valuables taken. They also declare that before they were placed on the train they were lined up by armed members of the Citizens' Alliance and their Federation cards taken from them. They were told that they were wanted in Cripple Creek, but that they must take out cards in the Citizens' Alliance to stay. If they did not consent to do this they were to be deported.

After eating a hearty meal—the first that some of them had enjoyed, so the fugitives stated, in twenty-four hours, they secured beds in a place where they could get accommodations.

Says No Law Was Violated.
"I don't know why I was deported. No more do I know why I was sent away from Victor and the Cripple Creek country. I have violated no law, de- stroyed no property, injured no man. So far as I know every one of the men driven with me from home are equally innocent with myself," said one of the men.

The guards who accompanied the evicted men from Cripple Creek re-turned to the district on the next train, which left about an hour later.

Reviews the Cadets.
Archbishop Redwood reviewed the cadets at All Hallows college yesterday morning and complimented the boys on the fine showing made under the direc-tion of Lieut. Bassett, Col. Greenwald and Capt. Webb were also present and added words of praise for the exhibition drill given.

To Give Dramatic Recital.
Miss Mary Hodgson and Miss Hor-ton Hodgson, pupils of All Hallows, will give a dramatic recital at Unity hall this evening at 8:15 o'clock. The young ladies will be as-sisted by Miss Rennie Pedersen, so-prano; William E. Wells, violinist, and J. J. McClellan, pianist.

Records of Union Seized.
Records of the unions have been seized whenever found and are under examination for the purposes of secur-ing evidence showing the unions or some of their officers have participated in or approved of the crimes that have been committed.

In addition to the unearthing of about thirty group photographs of non-union workmen at various mines, the miners concealed in a heap of rubbish in the Victor union office, it is alleged that in the office of the Altman union were found quantities of electrical fuses and batteries to produce explosions.

Talk of lynching or violence has sub-sided to a degree, though if the fiend who exploded the infernal machine in Independence, killing fifteen men, should be captured, it is doubtful whether any military force could pro- tect him from the fury of friends of the murdered men.

The man who killed Roxie McGee at the mess meeting here on Monday has been positively identified by an eye-wit-ness of the shooting, and although he has not yet been captured it is believed he cannot escape.

No further deaths have been reported among those who were wounded in the explosion and riots of Monday.

WM. BARTLING'S
NEW YORK CASH STOREAND THE
LACE HOUSE
CLOSING OUT SALES

With two large stocks to be condensed into one, and new goods purchased and due here within a few days, it's of vital importance that we dispose of an im-mense amount of merchandise in the next week. Notwithstanding that there will be two large floors, a basement and a large warehouse in our new quarters, it will be absolutely impossible to condense the two stocks and the coming shipments into our buildings. All lines of goods will be discounted and offered at prices that would be prohibitive under any other circumstances. In addition to this every cus-tomer will be given the American saving stamps with their purchases. This buy-ing opportunity must command your interest.

WM. BARTLING, Proprietor

Mormons Oppose
Mission Schools

So Declares the Congregational Edu-
cational Society in Its An-
nual Report.

BOSTON, June 8.—The report of the directors of the Congrega-tional Educational society, pre-sented at the annual meet-ing here today, designated the year as "one of vigorous activity in all de-partments of educational work," and indicated that progress in Utah had been seriously hindered by the Mormon church. The report said:

"Opposition to our mission schools on the part of the Mormon church au-thorities is determined and persistent. Every effort is made to hinder their efficiency."

the further they are away from secur-ing work. They are not in position to stand it much longer and the Record asks as Labor's best and demonstrated friend through this hard struggle that be called off at once, or these people will either be forced to leave the Federation or their homes.

"The Record does not have the confi-dence of the mine-owners, of the mili-tary or of the Citizens' Alliance, and it makes this plea solely in the interest of the men and women in this district that are without work, without money, without food, and who believe there is no hope of winning the strike and want it called off."

More Officials Resign.
Three more Victor City officials have been forced to resign. They are Justice of the Peace J. P. Thomas and Alder-men J. W. Murphy and J. J. Tobin. Police Magistrate Michael Gibbons, who refused to resign, was made a prisoner at the Victor military armory, where many union miners are also confined.

Frank J. Hanks, leading attorney of the Western Federation of Miners here, has been warned to leave the district.

It is said that in several instances operators and military to compel of-ficials to resign, both here and at Cripple Creek.

In all about 200 union members and sympathizers have been arrested by the Sheriff and military since Monday. Twenty-eight of these have already been deported. The remainder are im-prisoned in the jails, the Victor armory and the Cripple Creek mining exchange hall under military guard. The drag-net is still out and the "house clean-ing," as the authorities term their pro-ceedings, continues.

Records of Union Seized.
Records of the unions have been seized whenever found and are under examination for the purposes of secur-ing evidence showing the unions or some of their officers have participated in or approved of the crimes that have been committed.

In addition to the unearthing of about thirty group photographs of non-union workmen at various mines, the miners concealed in a heap of rubbish in the Victor union office, it is alleged that in the office of the Altman union were found quantities of electrical fuses and batteries to produce explosions.
